Thermal ageing monitors : Use of thermistors as thermal ageing monitors 411
Thermal analysis : A differential thermal analysis study on the reduction of ferric oxide by hydrogen ... 439
Thermal conductivity : Thermal conductivity of vegetable tanned sole leather containing moisture ... 235
Effective thermal conductivity of porous beds from transient heat conduction studies 292

PAGE

Thermal degradation : Studies on the degradation of high polymers: Part VI—Thermal degradation of butyl rubber in chlorobenzene, bromobenzene and tetralin solutions... 22
Thermal diffusion : Thermal diffusion separation of heavy hydrocarbons 1
Thermistors : Use of thermistors as thermal ageing monitors... 411
Thermodynamic properties : Oxidation of aromatic hydrocarbons: Part VI—Thermodynamic properties of benzene, phenol, *p*-quinone and maleic anhydride oxidation reactions... 272
Thermodynamics : Thermodynamics of hydrodealkylation of motor benzole 459
THIAGARAJAN, N. *see* UDUPA, H. V. K. 257
Thin films : Rotary system for uniform deposition of thin films 8
Titrimetric determination : Pyrocatechol as a reagent for the titrimetric determination of boron in carbon and alloy steels 75
Tool wear : Mechanism of cutting tool wear in the presence of magnetic field 165
Transformer oil : Effect of transformer oil reclamation processes on electrical breakdown 355
Transient heat conduction studies : Effective thermal conductivity of porous beds from transient heat conduction studies 292
Trapezoidal channel : Laminar and turbulent forced convection heat transfer in a symmetric trapezoidal channel 416
Triangular flow passage : Effect of location of turbulence promoter on heat transfer and friction in a triangular flow passage 87
Trichloroacetic acid : Sodium diethyldithiocarbamate as an inhibitor for the corrosion of aluminium by trichloroacetic acid 74
Influence of some colloids on the corrosion of α-brass in trichloroacetic acid solutions 305
Triglyceride component : Studies on the triglyceride component of mango (*Mangifera indica*) pulp ... 309
TRIPATHI, G. : Mass transfer at rotating cylinders 237
Mechanism of heat transfer in liquid fluidized beds ... 277
Residence time distribution studies on different systems : Derivation of a generalized correlation ... 281
Dissolution of solids into turbulent liquid streams ... 285
TRIVEDI, A. M. *see* PATEL, N. K. 305
see SAMAPT, S. S. 74
Turbines : Approximate methods of constructing stream lines in meridional plane of blade nozzle annular cascades of steam and gas turbines in subsonic and supersonic flows 93
Turbulence promoter : Effect of location of turbulence promoter on heat transfer and friction in a triangular flow passage 87
Turbulent heat transfer : Laminar and turbulent forced convection heat transfer in a symmetric trapezoidal channel 416
Turbulent liquid streams : Dissolution of solids into turbulent liquid streams 285
Tussar silk : Studies in Indian wild silks: Part III—Acid absorption characteristics of tussar silk 268
TUTEJA, A. D. *see* SURESH, N. 110

UDUPA, H. V. K. : Production of sodium chlorate using graphite substrate lead dioxide anodes—Scaling up to 800 amp cells... 257
see SWAMINATHAN, K. 330
UPADHYAY, S. N. *see* TRIPATHI, G. 237,285
UPPAL, K. S. : Evaluation of polyesters as stationary phase in gas liquid chromatography—Use of unsaturated polyesters 435
Uranium minerals : Flotation characteristics of phosphatic uranium minerals 344
Urea : Adduct formation with aqueous urea: Part I—Induction period studies 186
Adduct formation with aqueous urea: Part II—Equilibrium studies 191

PAGE

Vacuum system : An interlock protection circuit for a vacuum system 401
Van der Waals' equation : Empirical modification of Van der Waals' equation 476
Vanadium : Effect of particle size of ore and liberation trend of magnetite on the extraction of vanadium from magnetite ores of Andhra Pradesh (Tiruvur) ... 347
Vane system : Effect of straight vane system on the performance of conical diffusers 194
Vapour phase : Catalytic hydrogenation of crotonaldehyde to *n*-butanol in the vapour phase : Studies on determination of rate-controlling mechanism ... 145
Vapour phase chromatography : Analysis of coke oven gas by vapour phase chromatography ... 219
Vapour phase dehydration : Kinetics of vapour phase dehydration of ethanol to diethyl ether on bauxite catalyst ; Mechanism studies 103
Vapour pressure : Estimation of saturated vapour pressure and some other properties of organic and inorganic substances 39
VARMA, R. L. *see* TRIPATHI, G. 277
VARMA, Y. B. G. *see* RAGHURAMAN, J. 119
VASU, K. I. *see* MISRA, S. 372
Vegetable oils : Variation of dielectric properties of some vegetable oils in the liquid-solid transition phase 312
VENKATA RAO, C. *see* RAMALINGA SASTRY, A. ... 347
VENKATA RATNAM, M. *see* SUBRAHMANYAM, G. ... 99
VENKATACHALAM, S. : Texture and mineralogy of copper matte 170
VENKATACHALAPATI, M. V. : Effective thermal conductivity of porous beds from transient heat conduction studies 292
VENKATARAMAN, R. *see* MULYE, R. R. 61
VENKATESWARLU, D. *see* RAMASWAMY, C. M. ... 153
VENKATESWARLU, K. S. : Enrichment of europium from didymium carbonate by solvent extraction ... 58
VERMA, RAVI : X-ray study of faulting in BCC iron-aluminium alloys 19
VERNEKAR, S. P. *see* GHATGE, N. D. 262
Vertical channel : Void fraction measurements in two-phase air-water flow in a vertical channel by gamma ray attenuation 125
VIJENDRAN, P. : An interlock protection circuit for a vacuum system 401
Viscometric properties : Viscometric and rheological properties of carboxymethyl cellulose 230
Viscous flow : Equation of motion for viscous flow through a rigid porous medium 441
Visioplasticity technique : A new approach to the visioplasticity technique for solving plastic flow problems 242
VISWANADHA RAO, G. K. : Fatty acid components of Indian-grown soyabean oils 265
VISWANATH, D. S. *see* SHANKAR RAO, A. ... 476
VISWANATH, R. P. : A differential thermal analysis study on the reduction of ferric oxide by hydrogen ... 439
VISWANATHAN, B. *see* VISWANATH, R. P. ... 439
VISWESWARA RAO, Y. *see* RAO, B. V. 157
Void fraction measurements : Void fraction measurements in two-phase air-water flow in a vertical channel by gamma ray attenuation 125
